

Vita Select – individual supplementary pension plan

Vita Select lets employees choose their own investment strategy and gain direct exposure to financial markets. Tax optimization makes Vita Select even more attractive.

Why choose Vita Select?

Vita Select complements and supplements your current pension planning solution. It allows you to match your savings contributions, risk benefits and financing to your company's needs. Vita Select is a powerful all-in-one package comprising various investment strategies, flexible savings plans and optional risk benefits.

Individual choice of asset investment

Vita Select lets employees choose how they want their pension fund assets to be invested. Since they have the freedom to pick their investment strategy and savings contributions (optional) themselves, employees can gain exposure to financial markets and tailor their supplementary pension plan to their needs during their various stages in life. Vita Select offers five different investment strategies.

Flexible definition of benefits

Employers define risk benefits that are suited to their employees' needs.

Reliable, capable partners

Zurich and Zurich Investment Foundation are established, financially sound partners.

Savings contribution

Share of contributions credited to individual retirement savings capital.

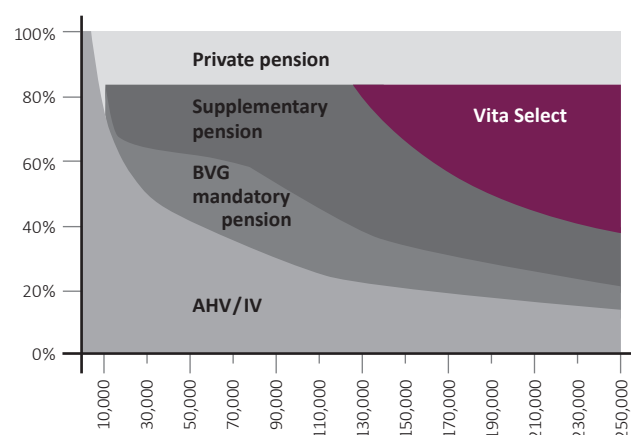

Elective plan

With an elective plan, your employees choose their own monthly savings contributions (as of January 1). The employer's contribution remains the same.

Supplementary pension plans for high incomes

Vita Select is the ideal supplement to your pension planning solution for employees earning CHF 127,980 or more per year (as of January 1, 2019).

Retirement pension in % of annual income

Basis: full contribution period, calculated at a BVG conversion rate of 6.8%

Annual income in CHF

Benefits you can count on

- employees choose their investment strategy themselves
- employers freely define risk benefits and savings contributions
- tax optimization options
- excellent performance in investment profiles
- good pension benefits make the company a more attractive employer
- IAS-friendly pension plan

The perfect strategy for every life situation

Different life stages call for different investment strategies. Risk capacity can vary depending on predictable long-term trends such as imminent retirement or sudden changes, such as inheritances or early withdrawals to finance home ownership. With Vita Select, people can adapt their investment strategies to their changing needs at any time.

- Bonds
- Real estate, mortgages
- Alternative investments

You can check the performance of Zurich Investment Foundation's investment groups online at www.zurichinvest.ch at any time.

Guaranteed investment

Fixed-rate investment (interest rate determined annually). Investments are managed by Zurich. The investment strategy can be changed once a year.

Asset investment by Zurich Investment Foundation

The Zurich Investment Foundation holds a wide range of investments so that each investment strategy can be executed efficiently and effectively. It is currently the third-largest investment foundation in Switzerland. It is regulated by the Supervisory Commission for Occupational Pensions (OAK BV).

The Zurich Investment Foundation uses attractive investment solutions from Zurich Invest Ltd. With around CHF 20 billion of assets currently under management, Zurich Invest Ltd is a key player in the Swiss fund market and is regulated by the Swiss Financial Market Supervisory Authority (FINMA). Zurich Invest Ltd picks best-in-class asset managers for its investment groups using an independent, clearly structured selection process. Managers are monitored regularly and replaced when needed.

Pension benefits

Our pension benefits are calculated based on applicable pension regulations and each company's individual pension plan.

Do you have questions about Vita Select?
