3	Approve Remuneration Policy	Mgmt	For	Against	Against

Additionally, the proposed policy introduces a facility for a one-off exceptional award opportunity, capped at 100% of base salary, to incentivise a strategic initiative. * The remuneration policy includes non-performance based restricted units within the compensation mix. 6	Approve Remuneration of Board Members	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted because the proposed remuneration is not considered excessive, while the fixed remuneration of a NED with particularly high payments in 2022 significantly decreases under this proposal. This is not without concerns due to the significant increase of two executives' remuneration.</i>				
7	Advisory Vote on Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted, although this is not without the following concerns: * The CEO and executive Polycarpou do not receive any variable, performance-based component; * Executive and non-executive director pay consists of a profit share, raising questions about how directors will be remunerated should the company incur net losses; * The company does not provide meaningful information regarding the average remuneration of employees of the company, in a manner which permits comparison with director remuneration; and * The fixed payment of NED Kerameus is particularly high for Greece. The main reasons for support are: * Pay levels of executives and most of the NEDs are not considered excessive; * The 2022 AGM approved the fixed remuneration of all the board members (except of the fixed remuneration package of Sofia Vakaki and the CEO); * Two management members are significant shareholders in the company, which align their interests with those of minorities; and * Under Item 6, the company proposes the reduction of Kerameus remuneration.</i>				
8	Approve Remuneration Policy	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted because no material shortcomings have been identified with the company remuneration policy, while the proposed amendment does not negatively affect it. However, the absence of variable pay opportunity for the CEO and executive Polycarpou, is a cause for concern, while the cap of termination payments is not explicitly stated.</i>

Voting Policy Rationale: A vote FOR this resolution is warranted however it is not without concern: * The company has failed to provide the quantum of stock options that the director is entitled to receive from Nestle S.A. * The resolution entails giving discretion to the board to increase the executive's remuneration by up to 30% of the salary. Large increase in fixed pay should be accompanied with adequate rationale justifying the increase. The main reason for support is: * The company has been judicious while paying its executives in the past. * The overall pay quantum is deemed reasonable compared to peers and commensurate with the size and scale of the company's operations.

	<i>Voting Policy Rationale: A vote FOR is warranted although it is not without concerns because: * A Restricted Share Plan is being introduced, replacing a performance-based long-term incentive scheme with a time-based one, leading to higher certainty of reward outcomes; and * The new policy introduces a greater weighting on non-financial metrics. The main reasons for support are: * There is a 50% discount of the former award level under the RSP and there is also internal alignment, as the RSP awards will be cascaded throughout the organisation; * The change to the bonus approach is a matter to be considered once implemented; and * No other significant issues have been identified.</i>

Voting Policy Rationale: A vote FOR the Company's routine submission of the directors' report and financial statements is warranted as no significant concerns have been identified.					
2	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the remuneration report is warranted, although it is not without concern because: * There is some incongruence between the financial and non-financial metric payouts, with the latter being largely qualitative in nature. * The EDs benefitted from a small windfall gain on vested LTIP awards and the Company's justification for not scaling back at vesting was insufficient. The main reasons for support are: * The bonus payouts are lower than the prior year and were determined by the achievement of increased EPRA earnings targets. The Company also adjusted the EPRA earnings outcome downwards, and noted that the other financial metric, total return on equity, did not pay out due to external market factors. There are also a few positives in the Company's economic results and performance, including its EPRA earnings and TSR relative to its peers. * The potential windfall gain is not considered excessive.

1	Accept Financial Statements and Statutory Reports	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the Company's routine submission of the directors' report and financial statements is warranted as no significant concerns have been identified.					
2	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is considered warranted as no material concerns have been identified.					
3	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the remuneration policy is considered warranted because: * The Company is proposing to increase the maximum annual bonus opportunities from 165% to 200% of salary for the CEO and from 140% to 175% of salary for the other EDs, and the maximum LTIP opportunities from 200% to 225% of salary for the CEO and from 165% to 200% of salary for the other EDs. The exceptional award limit for all EDs will also be increased from 175% to 210% of salary for the annual bonus and from 200% to 235% of salary for the LTIP. The proposed variable pay quantum is competitive relative to peers in the FTSE 250 index and will significantly increase the EDs' potential total remuneration, which is not considered to have been accompanied by sufficiently compelling rationale.

16	Approve Long-Term Incentive Plan	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this resolution is considered warranted, but is not without concerns because: * The proposed changes to the LTIP will materially increase available quantum, with award opportunities increased from 200% to 225% of salary for the CEO and from 165% to 200% of salary for the other EDs. The exceptional award limit will also be increased from 200% to 235% of salary. These award levels, together with the proposed increase in the annual bonus maximum, will significantly increase the EDs' potential total remuneration. The main reasons for support are: * Considered in isolation, the increases to the LTIP are modest and are not materially out of line with market peers. * The underlying mechanics of the LTIP do not raise material concerns. * Concerns with the increased LTIP opportunities, which contribute to the significant increase in the total pay quantum, are reflected in the vote recommendation in respect of the remuneration policy resolution (Item 3 above).</i>

1	Approve Remuneration Policy	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this resolution is warranted although it is not without concern: * LTIP opportunity is 300% and 215% of salary for the CEO and the CFO, respectively, with a 1.6x multiplier for exceptional performance, leading to maximum LTIP awards of 480% and 344% of salary. These are higher opportunities than the 2020 LTIP (although considerably lower than those allowed under the 2017 LTIP). The main reasons for support are: * The proposed LTIP is a significant improvement against the 2017 LTIP (under which five-year awards were outstanding for the duration of the old policy); * 2023 performance targets have been strengthened and upper decile TSR performance is required for the additional multiplier component; and * The Remuneration Committee is in the process of shifting to a more normalised LTIP structure.</i>					
2	Amend 2020 Long Term Incentive Plan	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this resolution is warranted although it is not without concerns: * As discussed under Item 1, the potential quantum, as facilitated by the increase in potential, is high. However, in mitigation, the overall direction is towards pay that is both lower, and more performance-based, than was previously the case (See Item 1).</i>

3	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concern because: * The Remuneration Committee has revisited the EPS targets for the 2019 and 2020 LTIP awards and has made retrospective adjustments to remove the requirement for inflation to be exceeded, which resulted in a substantial vesting outcome for this element rather than nil based on the formulaic outcome. Altering targets mid-course is contrary to UK market standards. The main reason for support is: * The Company's rationale for the adjustments is acknowledged. Very few companies have retained an RPI reference in their EPS targets; therefore, the unprecedented significant increase in the inflation rate will have effectively penalized the Directors in a way that will not be the case for peer companies whose incentive plans do not include an inflationary reference.

1	Approve Financial Statements and Income Allocation	Mgmt	For	For	For

2	Approve Management of Company and Grant Discharge to Auditors	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted due to the absence of concerns.</i>				
3	Approve Auditors and Fix Their Remuneration	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR is warranted because there are no concerns regarding this proposal.</i>				
4	Authorize Share Repurchase Program for Shares Held By the Hellenic Financial Stability Fund	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR this item is warranted because: * HFSF existence seems to terminate in 2025; and it has disclosed the mechanics to be used for its divestment. * The exit of the HFSF appears to have a positive impact with regard to restrictions regarding dividends and to bylaws amendments. However: * Explicit information about the setting of the buyback price has not been provided. * There are questions about an initial payment made to the HFSF by the company. Moreover, the company may use the repurchased shares for distribution to the management, while concerns have been identified to the stock option plan the company implements (See Item 8).</i>				
5	Approve Remuneration Policy	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this item is warranted because the proposed policy keeps foreseeing potentially excessive severance payments to executives, and termination payments to the non-executive chairman, and introduces particularly high pension payments to executives and pension contributions to the non-executive chairman. It is noted the high dissident vote on the remuneration policy in 2021.</i>				
6	Approve Remuneration of Directors and Members of Committees	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted, as the fees paid to directors for board-related duties are within market and industry standards. This is not without concerns due to the pension contributions to the non-executive chair (see items 5 and 7).</i>				
7	Advisory Vote on Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR this item is warranted because: * The CEO salary significantly increased, and no supporting rationale has been provided; however, his salary remained almost stable in 2018-2021, and it is not excessive in relation to peers. * The value of benefits is not disclosed. The pension contribution of the non-executive chair is addressed under Item 5. The features of the stock option plan are discussed under Item 8.</i>				
8	Fix Maximum Variable Compensation Ratio	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this item is warranted because, even though there are no concerns with the variable award cap, significant concerns are raised with the underlying stock option plan.</i>				
9	Amend Suitability Policy for Directors	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted because the proposed amendments appear overall positive. However, the deletion of couple of provisions about HFSF raises questions since HFSF has not yet disinvested from the company, while other related provisions are still in effect. It is also noted that minor deviations from HCMC guidelines still exist.</i>				
10	Increase Size of the Board and Elect Independent Directors	Mgmt	For	Against	Against

	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns because: * Marc Ronchetti received significant a salary increase during the year under review, in light of the changes in his role from CFO to CEO, and his base salary as CEO is set at the same level as the former CEO's. * Steve Gunning has been appointed as CFO on a base salary of GBP 600,000 which represents a 5% premium over that of his predecessor and is competitively positioned relative to peers in the FTSE 100 index. The main reasons for support are: * The Company's engagement with its shareholders to address concerns on the EDs' salary positioning, and the shareholders' corresponding feedback are acknowledged. * The CEO and CFO will not receive salary increases for FY2024. * The Company's growth and positive performance during the year are recognised.</i>

Voting Policy Rationale: A vote FOR this item is considered warranted, although it is not without concern: * The pension arrangements for the CEO and FD significantly exceed the wider workforce pension contribution rate, although are reflective of employees who joined at the same time as they did. The main reasons for support are: * This matter is considered a legacy arrangement and is part of a contractual entitlement. Further, the CCO with effect from 1 January 2023, has received a pension of 15% of base salary, which is aligned with "employees with similar service". Finally, the incoming FD will receive a pension contribution rate which is fully aligned with the wider workforce. * No other overriding concerns have been identified.

In addition, pay and performance are reasonably aligned for the year in review. Furthermore, annual incentives and the majority of long-term incentives are sufficiently tied to objective performance goals, while below target payouts are consistent with recent performance. Voting Policy Rationale: A vote AGAINST this resolution is warranted in view of the following concerns in the executive's remuneration: * The pay structure comprises stock options which have an exercise price at face value and are not subject to any performance conditions. These will follow time-based vesting and are only subject to continued employment. * There is no clarity on the metrics and parameters that will guide variable pay outcomes under this framework. This is concerning given a sizeable quantum of his remuneration is attributed to these pay components. * The quantum of remuneration is considered to be competitively positioned when compared to other domestic IT peers. * Fixed pay forms a major part of the total estimated remuneration which deviates from the structures adopted by companies operating in the same industry, where variable pay forms a major portion of the total pay.

	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concern: * The 2020 LTIP awards, which vested at maximum, appear to benefit from the share price low due to COVID-19. The main reasons for support are: * The vesting outcome of the 2020 LTIP awards appear to be in line with the Company's performance and shareholder experience. * There are no overriding concerns with the Company's remuneration practices in the year under review.</i>				
13	Approve Remuneration Policy	Mgmt	For	For	For
	<i>Voting Policy Rationale: This is the annual advisory vote on the Group's remuneration policy as required by the JSE Listings Requirements. The Group is also covered by UK law, which requires a binding vote on the structural elements of remuneration at least every three years, the last such vote being held in 2021. See the 2021 Social Advisory Services analysis for a full discussion of the policy, which was introduced at the 2021 AGM. A vote FOR this item is warranted, although it is not without concern for shareholders. The following issues were identified with respect to the resolution tabled at the 2021 AGM: * The maximum bonus opportunity is increased; the new maximum being set as a percentage of target and the bonus pool framework being discontinued. * The Remuneration Committee has discretion to increase time pro-ratio on outstanding share awards in good leaver scenarios. The main reasons for support were: * The normal LTIP award size is decreased; * Incentive awards are subject to a new risk modifier. The stretch of the targets will be kept under review under the remit of the remuneration report.</i>

Large fees paid for such work may undermine NED independence. 	<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The quantum of total pay package is high, particularly the vested value of LTI awards with a large portion not subject to performance conditions. * The quantum of the overall realized package for FY 2022/2023 is considered excessive (USD 61.5 million) where this is mainly driven by the SAR plan that is not sufficiently transparent and share options which are not tied to separate performance conditions. * A substantial part of the LTI awards vest before the third anniversary in deviation of best practice recommendations. * The quantum of discount linked short term incentive awarded is considered excessive. The CEO received a USD 3.4 million bonus for reducing the perceived valuation discount to NAV, but which appears to be mainly resolved by selling off Tencent shares and repurchasing company stock, without it necessarily being linked to company performance. This is not without noting the improved disclosure on the ex-post targets and achievements under the STI, further providing transparency on the link between pay and performance.</i>

Voting Policy Rationale: A vote FOR is warranted because there are no concerns regarding this proposal.					
10	Amend Articles of Association and Grant Board Authority to Issue Shares	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is warranted because * The proposal aims to remove the cross-holding structure that was implemented in 2021 and created undue complexity; * The removal of the cross-holding structure would enable the company to avoid buyback restrictions under the South African Companies Act, and ensures the company can continue its open-ended repurchase program; * Given the company's announcements of the open-ended repurchase program by gradually selling parts of its Tencent stake, there was a reduction in the holding company discount, which further indicates that the continuation of the buyback financed by selling Tencent is unlocking value for shareholders. However, this is not without concerns for the continued poor construct for management accountability with the maintenance of disparity between economic and voting control at Prosus (i.e. Naspers will have an economic stake of 43 percent in Prosus, but will have voting control of ca. 72 percent).

Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns for shareholders: * The board independence norms are not met (after reclassification) and Harikrishna Agarwal is a non-independent director nominee. * He is a member of audit committee. * The company has failed to disclose the quantum of stock options he is eligible to receive each year. This may lead to discretionary payout. * There are no disclosures on the threshold and target performance that he needs to achieve to determine his variable pay elements. The main reason for support is: * Given Harikrishna Agarwal is the company's CEO and executive chair, removing him from the board would likely have a material negative impact on shareholder value. * The overall pay quantum is deemed reasonable given the size and scale of the company s operations and his estimated pay is in line with market peers.

10.4	Approve Virtual-Only or Hybrid Shareholder Meetings	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this resolution is warranted, though it is not without concern: * It would allow for virtual-only shareholder meetings on a permanent basis and the company does not elaborate on the circumstances under which virtual-only meetings would be held. The main reasons for support are: * The company is holding an in-person AGM this year and clarifies that it does not currently intend to hold virtual-only meetings, but is rather seeking flexibility. * If virtual-only meetings would be held, shareholders' participation rights would be protected (in line with Swiss law).</i>

Voting Policy Rationale: Items 10.2 and 10.5-10.6 Votes FOR the proposed article amendments are warranted because they are overall non-contentious in nature and largely reflect amendments in line with new Swiss statutory requirements. Item 10.3 A vote AGAINST the proposed article amendments is warranted because: * The ownership threshold for shareholders to submit agenda items will increase from currently 0.17 percent of the share capital to 0.5 percent of the share capital. * The deadline for shareholders to submit requests to the board of directors would be set at 60 days prior to the AGM, which is high in the context of Swiss market practice. * The company has bundled a set of amendments that could have been submitted for shareholder approval under separate resolutions, presenting shareholders with an all-or-nothing choice.

10	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the remuneration report is warranted, although it is not without concern because: * The EDs' base salaries again increased 15%, higher than the average given to the wider workforce (9.4%). * There are some concerns in relation to the link between the bonus outcome and the Company's performance, especially given the shareholder experience. The main reasons for support are: * The 15% salary increase is part of the Company's three-year transition plan, following its move to a UK REIT in 2018. It has been discussed in successive annual reports, and there was no significant dissent against its remuneration report at the 2022 AGM. The increase was also accompanied by a 10% reduction in annual bonus opportunity. * The concerns regarding the bonus pay-for-performance link are not too egregious, and there have been some positive KPI areas, such as such as EPRA earnings and vacancy rates, despite significant macroeconomic challenges for the Company and the market as a whole. * The Company's decision to reduce its LTIP opportunity at grant for FY2023/24 by 25% is viewed positively.

4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this proposal is warranted given the following concerns: * High CEO pay relative to company performance compared to the company's peers. * High CEO pay in relation to company peer group CEO median pay levels. * The compensation committee demonstrated poor responsiveness to last year's failed say-on-pay vote. While the proxy discloses certain shareholder concerns from before the failed vote, the company does not disclose engagement with shareholders following the most recent failed say-on-pay vote result. Further, the CEO's equity awards, while performance-based, are earned primarily based on an overlapping metric with the STI plan that is measured over a one-year performance period. Lastly, the grant value of the CEO's equity remains relatively large and does not include the three-year performance awards that have not yet been disclosed in pay table values.

2	Approve Remuneration Report	Mgmt	For	For	For
	Voting Policy Rationale: A vote FOR the remuneration report is warranted although it is not with concern because: * There was a high level of dissent at the Company's variable remuneration vehicles, and its remuneration policy, at the 2022 AGM. No significant modifications were made in response. However, support is warranted because: * The Board did take steps to engage with shareholders in the aftermath of the AGM. * There have been no fresh grants under the option plan and none will be made, and therefore this scheme does not give rise to new concerns this year. * Going forward, the annual variable award will consist only of an RSP (no bonus is paid). Although concerns were raised with the introduction of the restricted share model last year, the nature of the ongoing arrangements does not give rise to the type of concern that would prompt ongoing adverse recommendations.

Voting Policy Rationale: A vote FOR this resolution is warranted given the following: * the proposed transaction would provide the company with additional funding which the company intends to utilize for the improvement and expansion of the group's existing businesses, potentially leading to the creation of additional avenues for profit and shareholder returns; * the company explored other financing alternative methods but concluded that the allotment and issue of the new subscription shares is the most feasible and cost-effective financing option; * while the subscription price for the new shares represents a discount over the recent market price of the shares, the overall terms of the subscription are deemed reasonable given the potential benefits that the company could incur in the long run; and * the terms of the Water Lily Share Subscription Agreement are the same as that of the terms provided to independent subscribers under the Independent Subscriber Share Subscription Agreements.					
2	Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this resolution is warranted for the following: * The aggregate share issuance limit is greater than 10 percent of the relevant class of shares for issuance for cash and non-cash consideration. * The company has not specified the discount limit for issuance for cash and non-cash consideration. * The company has refreshed the general mandate multiple times in a given year during the last two years.

	Approve Reappointment and Remuneration of K M Mammen as Manging Director with the designation "Chairman and Managing Director"	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns: * The board independence norms are not met (after our reclassification) and K M Mammen is a non-independent director nominee. * He is a promoter director serving as a member of the nomination and remuneration committee. * In terms of K M Mammen's variable pay, there are no disclosures on the specific performance metrics or a payment scale, for payouts to be made to him under this element. The main reasons for support are: * K M Mammen is the company's Chairperson and Managing Director and removing him from the board would likely have a material negative impact on shareholder value. * The company has prescribed a percentage as well as an absolute cap on his variable pay. * The approval sought does not allow payment of executive remuneration in excess of prescribed regulatory limits, which is unlike the company's past practice. * His estimated pay is deemed to be in line with industry peers.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. Following last year's failed say-on-pay vote result, the company engaged with shareholders, disclosed feedback heard in these engagements, and made changes to the pay program in response to these concerns. Accordingly, the compensation committee has demonstrated adequate responsiveness to shareholder concerns. Compensation for the CEO is primarily paid by the external manager under a management services agreement. Although this arrangement can result in limited pay disclosure, in this case the company provides sufficient disclosure of the pay programs. While a number of positive changes made to the pay program, in combination with the company's large size amid a recent business combination mitigate concerns for the year in review, a number of new features warrant continue monitoring. Compensation levels to the CEO (and president) under the new arrangement appear to be relatively high and may result in close scrutiny going forward should company performance decline. However, these concerns are mitigated for the year in review, as the company made a number of positive changes in FY23, including addressing longstanding goal rigor issues, and significantly increased in size following a material acquisition.

Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: * The plan cost is excessive * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary) * The plan permits liberal recycling of shares * The plan allows broad discretion to accelerate vesting

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. Annual and long-term incentives are primarily performance-based and long-term incentives utilize a multi-year performance period.					
3	Advisory Vote on Say on Pay Frequency	Mgmt	One Year	One Year	One Year
Voting Policy Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.

Voting Policy Rationale: A vote FOR this item is warranted because only 20.11 percent of the fees paid to the auditor are for non-audit purposes.					
5	Provide Right to Call a Special Meeting at a 25 Percent Ownership Threshold	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this proposal is warranted. While the ability to call special meetings would improve shareholder rights, this proposal is merely a request for the board to take action at a future meeting to provide a special meeting right with a 25 percent ownership threshold with otherwise undefined terms. The 25 percent ownership threshold is considered relatively high for a company of this size. Moreover, the proposed 10 percent threshold in Item 6 is considered more appropriate and it is recommended that shareholders vote in favor of Item 6.					
6	Provide Right to Call a Special Meeting at a 10 Percent Ownership Threshold	SH	Against	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted as the ability to call special meetings would improve shareholder rights. The proposed 10 percent ownership threshold is more appropriate for a company of this size relative to the 25 percent proposed by management in Item 5, which also lacks specificity in its terms.

	Approve Appointment and Remuneration of Ashok Kumar Tyagi as Managing Director	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns: * The board independence norms are not met (after reclassification) and Devinder Singh is a non-independent director nominee. * The proposed remuneration provided in the notice is for FY2024. There is no guidance on the quantum of remuneration to be paid to the directors over his remaining tenure. This might lead to discretionary payouts. * The board has failed to disclose the actual targets on which the commission payout would be based. In the absence of information, it is not possible to ascertain if the performance targets will be sufficiently stretching. The main reason for support is: * Given Devinder Singh is the company's managing director, removing him from the board would likely have a material negative impact on shareholder value. As such qualified support is considered warranted. * The board has capped the variable pay element and linked it to certain performance parameters. This would help align the executive pay with company performance. * Historical pay has been commensurate with the size and scale of the company's operations, and estimated pay is deemed to be in line with industry peers.

	<i>Voting Policy Rationale: Qualified support (FOR) for the proposed redomiciliation is warranted because: * In an update published on Sep. 15, 2023, on the proposal to redomicile to Bermuda, the company has provided additional concessions to enhance the governance of the current proposal following shareholder feedback. The company proposes (i) the introduction of preemptive rights as a protection of existing shareholders, (ii) shareholder approval right for share buybacks, and (iii) shareholder approval rights for the annual final dividends. * The company has provided additional background in support of the rationale to redomicile to Bermuda, where also the Spanish insurance supervisor DGSFP explains the potential risks of the BMA not becoming the supervisor and avoid potential uncertainty or 'unnecessary supervisory risks'. * Given the company's earlier concessions ((i) uphold the right of shareholders to approve major transactions as applicable under Dutch Law, and (ii) enable shareholders to have a binding vote on the remuneration policy at least every four years) and additional context and background to the rationale for changing supervisor, the company has demonstrated to be responsive to shareholder raised concerns in the process leading up to the EGM. However, this is not without continued concern for the overall governance changing for Aegon whereby a number of rights or strong governance features will disappear. Nevertheless, the proposed governance appears more balanced whereby also a number of positive amendments are noted.</i>

<i>Voting Policy Rationale: A qualified vote FOR is warranted as the proposed auditor appointments are in the context of the proposal to redomicile to Bermuda. The proposal specifically proposes to appoint auditors to the Luxembourg SA entity and Bermuda Ltd entity following the effectuation of each of the two redomiciliation steps. Although the redomiciliation does not warrant support, and taking into consideration the proposed redomiciliation requires a two-third majority versus a simple majority for the auditor appointments, in case of the effectuation of the merger the proposed auditors does not raise particular concerns.</i>

Voting Policy Rationale: Qualified support (FOR) for the proposed redomiciliation is warranted because: * In an update published on Sep. 15, 2023, on the proposal to redomicile to Bermuda, the company has provided additional concessions to enhance the governance of the current proposal following shareholder feedback. The company proposes (i) the introduction of preemptive rights as a protection of existing shareholders, (ii) shareholder approval right for share buybacks, and (iii) shareholder approval rights for the annual final dividends. * The company has provided additional background in support of the rationale to redomicile to Bermuda, where also the Spanish insurance supervisor DGSFP explains the potential risks of the BMA not becoming the supervisor and avoid potential uncertainty or 'unnecessary supervisory risks'. * Given the company's earlier concessions ((i) uphold the right of shareholders to approve major transactions as applicable under Dutch Law, and (ii) enable shareholders to have a binding vote on the remuneration policy at least every four years) and additional context and background to the rationale for changing supervisor, the company has demonstrated to be responsive to shareholder raised concerns in the process leading up to the EGM. However, this is not without continued concern for the overall governance changing for Aegon whereby a number of rights or strong governance features will disappear. Nevertheless, the proposed governance appears more balanced whereby also a number of positive amendments are noted.

	<i>Voting Policy Rationale: A vote AGAINST the proposed article amendments is warranted because: * The deadline for shareholders to submit agenda proposals would be increased from currently four weeks to 45 days prior to the general meeting, which would have a negative impact on shareholder rights. * The company has bundled a set of amendments that could have been submitted for shareholder approval under separate resolutions, presenting shareholders with an all-or-nothing choice.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this proposal is warranted given that the compensation committee demonstrated only limited responsiveness to last year's low say-on-pay vote result. While the company engaged with investors following last year's annual meeting, the proxy does not detail the portion of investors the company met with, nor if directors participated. Although the company made certain improvements to the pay programs, it is unclear if such changes fully address investor feedback. Lastly, an unmitigated pay-for-performance misalignment was again identified at the company and concerns are raised regarding the level of discretion in the annual incentive program and certain overlapping performance periods in the long-term program.

Voting Policy Rationale: Shareholders may be concerned by the 30.4 percent premium paid to NCM in an environment where investors have expressed preference for no-premium deals. This concern is likely partially reflected in NEM's underperformance since the unaffected date. Nevertheless, the underperformance has recently narrowed, and there has been no public opposition to the deal. The strategic rationale appears reasonable, as the merger will result in the industry's largest gold reserve and resource base, increase NEM's exposure to copper, and yield cost synergies, allowing for significant cash flow generation. As such, support FOR the proposed transaction is warranted.

Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned for the year in review. That being said, annual incentives are largely based on pre-set financial metrics, and half of the CEO's equity awards are performance based over a multi-year performance period.

1	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this resolution is warranted. No material misalignment between executive pay and company performance has been identified. STI and LTI bonuses are reasonably aligned with improved financial performance and positive shareholder returns. The main concerns are for: * Inferior and absent disclosure of specific and quantified financial thresholds and targets in the STI, and * Provision for "dividends on unvested shares" in the LTI.					
2	***Withdrawn Resolution*** Elect Mark Fleming as Director	Mgmt			
Voting Policy Rationale: As per the group's announcement of 27 September 2023, Mr Fleming has announced his resignation from the company, with 24 December 2023 being his last day with the group. This resolution has been withdrawn.					
3	Elect Antoinette Milis as Director	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the election of Antoinette (Toni) Milis is warranted.					
4	Approve Issuance of Short Term Incentive Rights to Anthony Mellowes	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR these resolutions is warranted. * The STI rights to the CEO (Item 4) represent the deferral of 50 percent of the FY23 STI which has been determined by the board pursuant to meeting the FY23 STI performance measures. This is consistent with market practice. * The LTI performance rights to the CEO (Item 5) represent the FY24 LTI grant which has a three-year performance period subject to relative TSR and AFFOPU performance hurdles, which are considered to be consistent with market practice, and sufficiently rigorous to represent improved securityholder interests. LTI awards are also subject to 'malus' provisions and subject to an additional 12-month deferral period. Some concerns continue to be noted regarding the inconsistencies with good market practice include the change in control provisions allowing for accelerated vesting at the board's discretion, dividends of unvested shares, and the 'false choice' that the LTI will be settled in cash if the rights are not approved.

Voting Policy Rationale: A vote FOR the approval of the STI rights is warranted. Concerns are noted that there is no disclosure regarding the exact nature of Mr Fleming's departure arrangements, including whether he is a "good leaver". The fact that Mr Fleming's last day has been nominated as 24 December 2023 suggests that he is on "good leaver" terms.

5.4	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the remuneration report is warranted, though it is not without concerns: * There are limited ex-post disclosure to explain the evolution of variable payouts versus company performance. * There is no standalone long-term incentive component that measures performance over a multi-year period. Rather, executives may participate in a share purchase plan where shares are priced at a 30 percent discount and there are no separate performance conditions. The main reasons for support are: * The company's remuneration practices are broadly in line with market practice and no significant concerns are noted regarding outcomes for the past year.</i>

6.1	Amend Articles of Association (Incl. Approval of Virtual-Only or Hybrid Shareholder Meetings)	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposed article amendments is warranted because: * One of the amendments would allow for virtual-only shareholder meetings on a permanent basis and there is no explanation of the circumstances under which virtual-only meetings would be held. * The company has bundled a set of amendments that could have been submitted for shareholder approval under separate resolutions, presenting shareholders with an all-or-nothing choice.					
6.2	Approve Creation of Capital Band within the Upper Limit of CHF 15.2 and the Lower Limit of CHF 5.6 with or without Exclusion of Preemptive Rights	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposed authorization is warranted because: * The issuance request, when combined with the existing conditional capital, would allow for a capital increase without preemptive rights for up to 42.7 percent of the issued share capital.					
7	Transact Other Business (Voting)	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * This item concerns additional instructions from the shareholder to the proxy in case new voting items or counterproposals are introduced at the meeting by shareholders or the board of directors; and * The content of these any new items or counterproposals is not known at this time. Therefore, it is in shareholders' best interest to vote against this item on a precautionary basis.

1	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: VOTE RECOMMENDATION A vote AGAINST the remuneration report is warranted because: * The quantitative Pay for Performance model indicates a high degree of concern for misalignment of pay, performance and shareholder outcomes in FY23. * Financial STI measures were down weighted from 75 percent to 60 percent; * AFFO growth in FY23 was negative, and there appears no gateway requirement for AFFO growth to be positive; and * Non-financial measures in the LTI, representing 20 percent of the award, which appears to be assessed against the core duties of the executive's role (ie. development, investment, funds management, and sustainability), with clear similarities to non-financial measures in the STI Award, lead to concerns regarding rewarding executives twice for achievement of the same performance measures.					
2	Approve Grant of Performance Rights to Darren Steinberg	Mgmt	For	For	For
Voting Policy Rationale: A qualified vote FOR the Grant of Performance Rights to the CEO is warranted. The two financial performance measures (Relative TSR and ROCE) are sufficiently aligned with improved shareholder interests over two performance periods. The qualification is to highlight concerns for the following: * With no positive TSR 'gateway' it is possible for executives to be awarded a bonus based on achievement against peers on a relative basis, even if the absolute TSR outcome over the performance period is negative and shareholders have lost money; and * The continued utilisation of non-financial performance measures, offers bonuses for the "day job" of the CEO.

	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A qualified vote FOR this resolution is warranted as pay and performance and shareholder outcomes appear reasonably aligned at this time: The qualification serves to highlight the following concerns: * There continues to be insufficient disclosure in the STI plan; * The absence of a positive TSR requirement for the relative TSR measure and the use of cliff vesting for the EPS measure in LTI; * The use of EPS as a performance metric in both the STI and LTI plans, which could lead to 'double-counting' between the two incentive plans, rewarding executives for achievement of the same financial performance metric twice; and * While the maximum LTI opportunity did not change at \$1.64 million, the maximum STI opportunity continues to increase, with \$1.92 million set in aggregate for all KMP (FY22: \$1.64 million). The maximum STI and LTI opportunities will be increased again in FY24 to approximately \$2.23 million and \$2.18 million, respectively.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
Voting Policy Rationale: The compensation committee was sufficiently responsive to shareholders' concerns after last year's relatively low say-on-pay vote result by engaging with shareholders and making changes to address the primary concern expressed. However, an unmitigated pay-for-performance misalignment exists for the year under review. The CEO received a large front-loaded option grant that, even when annualized over the two years it is intended to cover, significantly elevated his total target equity value. While the award is entirely performance-based and the first tranche did not vest due to failure to achieve the threshold goal, vesting is based on one-year performance goals, and the company does not disclose the goal targets nor actual achievement for the FY23 tranche. In addition, some shareholders may be concerned by the new relative TSR metric's targeting of merely median performance of a comparator group that has not yet been disclosed. As a result of noted pay-for-performance concerns, a vote AGAINST this proposal is warranted.					
4	Advisory Vote on Say on Pay Frequency	Mgmt	One Year	One Year	One Year
Voting Policy Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.					
5	Ratify KPMG, LLP as Auditors	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is warranted because none of the fees paid to the auditor are for non-audit purposes.

<i>Voting Policy Rationale: A qualified vote FOR this resolution is warranted as executive pay, company performance, and securityholder returns are not materially misaligned at this time. In general, the STI and LTI structures are aligned with good market practice and securityholders' interests. However, the qualification serves to highlight concerns regarding the the board's decision to set operating earnings target under the FY23 STI below the FY22 target and actual results, which may provide the executive KMP a bonus for diminished earnings performance. As a result, shareholders may question the STI bonus outcome, which was achieved at 50 percent, in light of the deterioration in the company's financial performance and stapled security prices.</i>

2	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the remuneration report is warranted. * Remuneration outcomes are reasonably aligned with securityholders and company performance for the year under review, * The company has begun to disclose financial measures for the STI which were set above prior year results, and * The company has appropriately lapsed all outstanding equity incentives for the former CEO. Concerns are raised for the continued absence of disclosure of the specific and quantified targets (at threshold, target and stretch) for the STI non-financial performance measures which hinders securityholders' ability to assess overall rigor of the STI plan.

	Approve Grant of Performance Rights to Peter Huddle	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the grant of performance rights to the CEO is warranted. The terms of the grant are broadly unchanged from the prior year, and sufficiently align the bonus to the CEO with improved results for investors and financial performance. The performance period is four years, which is consistent with larger companies. The performance measures include relative TSR and a Total Return measure with targets clearly presented for shareholder assessment, with some increased rigour of targets and hurdles. Concerns are noted that: * The TSR hurdle is assessed against a narrow and curated peer group, and there is no positive TSR gateway, and * The total return measure for the FY24 LTI is based on a lower hurdle range of 5.5 percent to 7.5 percent, compared to prior grants, where for example, the FY20 LTI had a range of 9.0 percent to 9.5 percent. This may reflect the post-Covid environment for investors.

	Approve Remuneration Report	Mgmt	For	For	For
Voting Policy Rationale: A qualified vote FOR this resolution is warranted as executive pay, company performance, and securityholder returns are not materially misaligned at this time. The STI bonus paid well below target, in line with the company's weakened financial performance over the past year, while the FY21 LTI vested at maximum, consistent with shareholder experience over the three-year performance period. However, the qualification serves to highlight the following concerns: * The STI plan is not subject to any pre-set financial metrics and goals; * The STI disclosure is poor and below market practices; and * The LTI is based on a single performance metric – relative TSR – with a curated and narrow comparator group.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposal is warranted. Following the 12th consecutive low say-on-pay vote result, the proxy vaguely described shareholder engagement efforts, and though feedback is clearly disclosed, the committee did not make any substantive changes to the executive pay program to address shareholders' concerns. Additionally, while CEO pay and company performance were reasonably aligned for the year in review, there are concerns noted within the pay program. Most notably annual equity grants to certain NEOs do not utilize performance-conditioned equity, which is inconsistent with prevailing market practices. This concern is heightened given the magnitude of certain awards and specific shareholder requests for performance-conditioned equity during engagement. Additionally, Chairman Ellison received excessive security fee perquisites in FY23, and no additional disclosure is provided regarding a sharp increase in the value of this perquisite.					
3	Advisory Vote on Say on Pay Frequency	Mgmt	One Year	One Year	One Year
Voting Policy Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.					
4	Amend Omnibus Stock Plan	Mgmt	For	Against	Against
Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: * The equity program is estimated to be excessively dilutive (overriding factor) * The plan cost is excessive * The three-year average burn rate is excessive * The plan allows broad discretion to accelerate vesting					
5	Ratify Ernst & Young LLP as Auditors	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is warranted because only 4.69 percent of the fees paid to the auditor are for non-audit purposes.					
6	Report on Median and Adjusted Gender/Racial Pay Gaps	SH	Against	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted, as a report on gender and pay racial gaps would allow shareholders to better evaluate the progress of the company's diversity and inclusion initiatives and its management of any related risks.					
7	Require Independent Board Chair	SH	Against	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted given the importance of having an independent chairman of the board. In addition, there are ongoing concerns regarding the company's compensation practices, the significant pledging by the company's chair, and the non-robust lead director role.

1.1	Approve Remuneration Policy	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is warranted, although it is not without concern for shareholders: * Single Incentive Plan consolidates short-term and long-term awards, the latter delivered through deferred awards. The scheme in essence lacks a long-term forward-looking performance assessment. The main reason for support is: * All awards will be based on performance, and any "long-term" element will vest after a minimum of three years from a grant cycle.					
1.2	Approve Implementation of the Remuneration Policy	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this item is warranted: * On balance the Company's implementation report raises no major concerns.

1	Approve Remuneration Report	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted on the basis that: * Following the de-stapling of the Storage King business, the company has made various changes to the structure of outstanding equity incentives that are materially inconsistent with better remuneration practices amongst other large-listed companies in the ASX300, and these changes were not put to shareholders for approval; * The company has forecast a 20.25-percent increase in the managing director's FY24 total remuneration that does not appear to be accompanied by an disclosed proportionate increase in the rigour of performance targets and hurdles; * There continues to be inferior and absent disclosure of quantified and specific STI performance targets and hurdles to justify bonuses and allow shareholders to assess target rigor; and * 10 percent, or \$150,000, of the managing director's FY23 STI opportunity was subject to achievement of the de-stapling, which may indicate certainty of vesting given the completion of the transaction. transaction-related bonuses are not in-line with the expectations of some investors, and inconsistent with better practices amongst other large-listed companies.</i>					
2	Elect Sally Herman as Director	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote AGAINST the re-election of Chair Myra Salkinder (Item 3) is warranted on the basis of concerns identified under Social Advisory Services policy, in particular material failures of governance and problematic pay practices. A vote AGAINST incumbent nominating committee member Myra Salkinder is also warranted for lack of diversity on the board. A vote FOR new director nominee Sally Herman (Item 2) is warranted at this time.</i>

<i>Voting Policy Rationale: A vote AGAINST the re-election of Chair Myra Salkinder (Item 3) is warranted on the basis of concerns identified under Social Advisory Services policy, in particular material failures of governance and problematic pay practices. A vote FOR new director nominee Sally Herman (Item 2) is warranted at this time.</i>					
4	Approve Grant of Performance Rights to Steven Sewell	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST the grant of FY24 LTI performance rights to the Managing Director Steven Sewell (Item 4) is warranted. The following concerns are highlighted: * The managing director will receive a 24.8-percent uplift in his maximum opportunity in FY24, which has not been appropriately accompanied by an increase in the rigour of performance targets and hurdles. Given the fall in the company's share price and market capitalisation following de-stapling of the Storage King business, the CEO's LTI opportunity may be significantly above the median of the company's FY24 market cap peers; * Questionable rigour of the EBIT CAGR performance measure. Some shareholders may consider the threshold two-percent CAGR in EBIT results (approximately six-percent growth over three years and eight percent over four years) to be less than rigorous and misaligned with their expectations; and * Dividends on unvested shares. Based on market expectations, there should be no entitlement to dividends on such awards given they have not been earned.</i>

2	Elect Mark Bloom as Director	Mgmt	For	Against	Against
<i>Voting Policy Rationale: Vote AGAINST incumbent nominating committee member Mark Bloom for lack of diversity on the board. Further concern regarding Mark Bloom is warranted based on the excessive non-audit fees paid to the external auditors, which appear to be one-off in nature noting the company's recent listing on the ASX. Bloom is a member of the company's audit committee. Shareholders may nevertheless seek to monitor any on-going excesses in non-audit fees. Furthermore, Social Advisory Services will therefore monitor how the company remunerates its auditors in the ensuing years.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR the proposal is warranted, with caution. There are ongoing concerns surrounding the relatively high compensation to both the CEO and Executive Chairman. Continued monitoring of the chairman's pay arrangements is warranted as he transitions to the role of Chairman Emeritus next year. Despite these concerns, CEO pay and performance are aligned for the year in review. The annual bonus is based on pre-set objective metrics, while below-target payout aligned with recent company performance. Furthermore, though forward-looking goals were not disclosed, half of the annual equity grants are based on performance-conditioned equity with a multi-year performance period.</i>

Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although overall compensation levels for the CEO declined somewhat in FY23, his total annual pay and three-year cumulative pay are relatively high, and a review of the pay program reveals several concerning features. Specifically, the majority of equity awards continue to lack performance vesting conditions. Further, there are renewed concerns regarding high base salaries and STI payout opportunities. In addition, continued monitoring of the company's practice of granting large off-cycle equity, particularly given the size and structure of the awards in recent years. Finally, concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.

	<i>Voting Policy Rationale: A vote FOR this resolution is warranted since the overall structure appears reasonably aligned with securityholders' interests and outcomes. The STI and LTI appear to be well structured and incentive outcomes appear reasonably aligned with the company's financial performance and shareholder returns for the review in review. However, concerns remain with respect to the STI awards as half of the award is based on non-financial metrics which appear to be related more to the executive's day-to-day role rather than outperformance. In addition, the LTI's relative TSR metric lacks a positive TSR gateway, which may result in awards vesting if the company outperformed its peers even though shareholder returns are negative.</i>

1	Approve Merger Agreement	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted. Concerns regarding the size of the transaction's deal spread and the board's decision forgo an auction process appear to be mitigated, given a combination of public reports of a potential sale, the board's concerns that the acquirer may not participate in the sales process, and the lack of inbound inquiries. Further, the offer represents a premium to the unaffected price and to the one-year high price, and there also appears to be downside risk of non-approval, given the stock's outperformance since announcement of the merger and since the subsequent expiry of the HSR waiting period.

Voting Policy Rationale: A vote FOR this proposal is warranted. Pursuant to the company's original agreements with executives, cash severance is double trigger and of a reasonable basis, with no excise tax gross-ups payable, while outstanding equity would only accelerate upon a qualifying termination. However, the company entered into new employment agreements with executives that may result in modified single trigger cash benefits and certain equity accelerations, as well as sizeable retention awards. As these new agreements are with the combined company and contingent upon the merger, these new modifications will be assessed in the say-on-pay context for the combined company.

1	Ordinary Resolutions Elect Patrice Motsepe as Director	Mgmt	For	For	For
Voting Policy Rationale: Item 1 A vote FOR the re-election of Patrice Motsepe is considered warranted, although it is not without concern as: * Patrice Motsepe is not considered independent and sits on the Nomination Committee, on which there is no majority of independent NEDs among the members. The main reason for support is: * This the first year that the Committee has fallen below the majority independence threshold, which is primarily a result of concurrency tenure becoming a concern for two NEDs. This concern alone is not deemed sufficiently compelling as to warrant a voting sanction, hence a degree of flexibility is considered appropriate at this time. Items 2 and 3 A vote FOR these items is considered warranted, as no material issues have been identified in relation to the re-election of these directors to the Board.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the proposal is warranted, with caution. Pay and performance are reasonably aligned for the year in review. Although the CEO has a relatively large target bonus opportunity, the annual bonus was largely based on pre-set financial metrics which appear to utilize rigorous target goals. The majority of the annual LTI program is based on performance-conditioned equity; however, a significant portion of the vesting percentage is determined based on one-year performance. The special equity award to each NEO also utilizes one-year performance periods, though its growth goals appear to be rigorous. Continued monitoring of these structural issues is warranted.

3	Approve Demerger Proposal	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted because: * the spin-off into Solvay (essential chemicals) and Syensqo (specialty chemicals) is supported by compelling rationale and a positive market reaction; * no governance nor legal issue has been identified in this case; and * each shareholder will receive new shares in Syenqo on pro rata basis of their shareholding in Solvay.

8	Authorize Board to Issue Shares in the Event of a Public Tender Offer or Share Exchange Offer and Renew Authorization to Increase Share Capital within the Framework of Authorized Capital	Mgmt	For	For	For
<i>Voting Policy Rationale: Qualified support FOR these capital authorizations is warranted because: * The authorizations to issue and repurchase and reissue shares have limited efficacy as a result of installed safeguards (sunset provision of 24 months and special majority needed on the board to use the authorization); and * The board has committed not to renew the authorizations after expiration and is not purposed to stop a takeover, but instead encourage dialogue. This is however not without continued level of concern for the ability of the board to place shares with a strategic shareholder during a takeover situation and 'frustrate' the process. This concern is somewhat mitigated by Solvac holding 31 percent of capital and basically having a de facto control already.</i>					
9	Authorize Repurchase of Up to 10 Percent of Issued Share Capital and Amend Article 9 Accordingly	Mgmt	For	For	For

	<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The proposed EUR 12 million cash bonus is in connection with the proposed demerger proposal without being subject to the successful completion of the demerger, other performance conditions or longer term value creation following the demerger; * The proposed one-off award is in cash, and not necessarily aligned with longer-term interests of shareholders. * The proposed bonus is substantially above market practices and considered excessive; * The company already granted an option-award in connection with the demerger proposal in October 2022, further raising questions on the appropriateness of an additional EUR 12 million cash award for the CEO alone.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	Voting Policy Rationale: There are significant concerns regarding incentive pay design and magnitude. While the STIP is based primarily on objective financial metrics, the matrix design allowed for nearly maximum payouts despite below-target achievement of one of the two primary metrics. Greater concerns are raised regarding equity award design and magnitude. Shareholders may appreciate that equity incentives are entirely performance-conditioned; however, the regular LTIP utilizes goals that are set and measured on an annual basis and the design carries significant upside potential. The value of the CEO's regular LTI awards more than doubled from the prior year's grants, and he also received a one-time \$113 million retention award. While the committee provides ample disclosure as to its rationale for the award, some shareholders may nevertheless question the size of the special award on top of the magnitude provided by the much larger regular LTIP grant. In light of these concerns, a vote AGAINST this proposal is warranted.				
4	Amend Omnibus Stock Plan	Mgmt	For	Against	Against
	Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): * The three-year average burn rate is excessive, and * The plan allows broad discretion to accelerate vesting.

The increase of the bonus opportunity at target would also induce an increase in the LTI cap. The company failed to provide any rationale. * The executive could receive the full portion of the unvested awards without application of a pro-rata in the event of retirement. * As last year, the derogation policy is too vague on which elements and to what extent the remuneration can be modified.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this proposal is warranted. Although some concern is raised regarding separation and transition arrangements for the executive chairman, which warrants continued monitoring, pay and performance were reasonably aligned for the year under consideration. Voting Policy Rationale: A vote FOR the remuneration policy is considered warranted, although it is not without concern for shareholders because: * Bonus deferral will be removed for EDs who have already met their shareholding requirement. This represents a regression over current practice. The main reasons for support are: * The in-employ shareholding requirements are significantly higher than the current market practice, and current EDs have already met this threshold. This ensures alignment of management interests with those of shareholders. * No other concerns have been identified.

This may lead to discretionary payouts. * Samir Thariyan Mappillai and Varun Mammen belongs to the promoter group and K M Mammen, promoter director, serves as a member of the nomination and remuneration committee. 	Approve Appointment and Remuneration of Ashok Vaswani as Managing Director & CEO	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns for shareholders: * There is no disclosure on the number of stock options to be granted to the executive each year or the performance conditions for vesting. * The company has not disclosed the quantum of performance bonus which the executive is entitled to receive as part of his remuneration. * There are no disclosures on the threshold and target performance that he needs to achieve to determine the variable pay. The main reasons for support are: * The variable pay is capped and subject to RBI guidelines. Remuneration of executive will be reviewed by RBI periodically. * Estimated pay is deemed reasonable given the size and scale of the company's operations and is in line with market peers.

3	Approve Revision of Remuneration to M. Madan Mohan Reddy as Whole-time Director	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR this resolution is warranted although it is not without concerns: * The pay structure is devoid of any performance linked element or variable pay, which might not be in line with company performance and is not in the interest of shareholders. * M. Madan Mohan is being awarded significant salary increments before the end of his tenure, without a sufficiently compelling rationale. The main reasons for support are: * His estimated pay is deemed reasonable, given the company's size and scale of operations and aligns with industry peers in similar lines of business. * The increments are supported by recent strong business performance.
